Annual Index – 1980

Subject Index 00 — 58

Index of Mathematical Papers Volume 12
Published by the American Mathematical Society
Providence, Rhode Island USA
ISSN 0025-5629

1980 Mathematics Subject Classification

(As used in Mathematical Reviews beginning in 1980)

00 General
01 History and biography

03 Mathematical logic and foundations
04 Set theory
05 Combinatorics
06 Order, lattices, ordered algebraic structures
08 General mathematical systems

10 Number theory
12 Algebraic number theory, field theory and polynomials
13 Commutative rings and algebras
14 Algebraic geometry
15 Linear and multilinear algebra; matrix theory
16 Associative rings and algebras
17 Nonassociative rings and algebras
18 Category theory, homological algebra

20 Group theory and generalizations
22 Topological groups, Lie groups

26 Real functions
28 Measure and integration
30 Functions of a complex variable
31 Potential theory
32 Several complex variables and analytic spaces
33 Special functions
34 Ordinary differential equations
35 Partial differential equations
39 Finite differences and functional equations

40 Sequences, series, summability
41 Approximations and expansions
42 Fourier analysis
43 Abstract harmonic analysis
44 Integral transforms, operational calculus
45 Integral equations
46 Functional analysis
47 Operator theory
49 Calculus of variations and optimal control; optimization

51 Geometry
52 Convex sets and related geometric topics
53 Differential geometry
54 General topology
55 Algebraic topology
57 Manifolds and cell complexes
58 Global analysis, analysis on manifolds

60 Probability theory and stochastic processes
62 Statistics
65 Numerical analysis
68 Computer science

70 Mechanics of particles and systems
73 Mechanics of solids
76 Fluid mechanics
78 Optics, electromagnetic theory

80 Classical thermodynamics, heat transfer
81 Quantum mechanics
82 Statistical physics, structure of matter
83 Relativity
85 Astronomy and astrophysics
86 Geophysics

90 Economics, operations research, programming, games
92 Biology and behavioral sciences
93 Systems theory; control
94 Information and communication, circuits

MATHEMATICAL REVIEWS

Published by

AMERICAN MATHEMATICAL SOCIETY

Editorial Committee: P. T. Bateman, E. R. Berlekamp, C. M. Pearcy

Editors: A. A. Armendáriz, W. Bouwsma, L. C. Eggan, E. Gerlach, P. D. F. Ion, S. Ivanov, J. S. Joel, J. E. Kister, F. J. Papp, M. Rabindranathan, P. B. Smith, S. Zdravkovska

Editorial Consultants: F. D. Bateman, F. J. Beutler, J. W. Brown, I. Cesari, C. L. Dolph, J. L. Goldberg, A. Greenspoon, A. S. Gupta, F. Harary, A. E. Heins, D. J. Lewis, R. J. Muirhead, M. S. Ramanujan, A. Ramm, J. F. Riordan, R. A. Scott, N. Starr, V. K. Wong

Executive Editor: J. L. Selfridge
Managing Editor: W. B. Woolf
Manager, Editorial Assistants: D. J. Kimball
Head Librarian: Janice Seidler
Editorial Associate: Bogdan D. Dudzik
Administrative Assistant: Jane Z. Ophoff
Office Manager: Frances E. Bryant
System Analyst: Rilla J. Thedford
Production Manager: Juan Rodríguez-Padró
Information Processing Supervisor: Carol E. Roberts
Reviewer Data Supervisor: Tamra Higley

General Information

Journal references in Mathematical Reviews are given in the following form: *Rückschritte der Math.* (6) **5(56)** (1960/61), *no.* 2, 18–53 (1962), where, after the abbreviated title, one has: (series number) volume number (volume number in first series, if given) (nominal date), issue number if necessary, first page–last page (imprint date). If only one date is given, this will usually be interpreted as the nominal date and will follow the volume number. If no volume number is given, the year will be used in its place. The symbol ★ precedes the title of a book or other nonperiodical that is being reviewed as a whole. If an issue of a journal needs to be reviewed as a whole (e.g., when it is a collection of articles dedicated to an individual) and an ad hoc title is devised for this purpose then the latter will appear in braces { }.

References to reviews in Mathematical Reviews before Volume 20 (1959) are by volume and page number, e.g., MR **15**, 122; from Volume 20 to Volume 58 (1979), by volume and review number, e.g., MR **20** #4185 or MR **23** #A513; from 1980 on, by issue and review number, e.g., MR 80a:46017. References to reviews in Jahrbuch über die Fortschritte der Mathematik and Zentralblatt für Mathematik are by volume and page number for the period before 1972 (e.g., Jbuch **50**, 173; Zbl **29**, 323) and by volume and review number since 1972 (e.g., Zbl 218:46017). Reviews reprinted from Applied Mechanics Reviews, Computing Reviews, Electrical & Electronics Abstracts, Mathematics of Computation, Operations Research, Physics Abstracts, Referativnyĭ Žurnal Matematika (Mehanika, etc.), Statistical Theory and Method Abstracts, or Zentralblatt für Mathematik are identified in parentheses following the reviewer's name by AMR, CR, EEA, MC, OR, PA, RŽMat (RŽMeh, etc.), STMA, Zbl, respectively.

Editorial Office: University of Michigan, Ann Arbor, Michigan. Editorial correspondence should be addressed to MATHEMATICAL REVIEWS, 611 Church Street, Ann Arbor, Michigan 48104, U. S. A.

Subscription information: Subscription prices for 1980 (old vols. 59 and 60) of Mathematical Reviews and the annual index (Index of Mathematical Papers, Volume 12) are $1120 list, $840 institutional member, $130 individual member, $65 reviewer. Combination paper and microform (microfiche or microfilm) subscription prices are $1344 list, $1008 institutional member. Microfiche of each issue will be mailed the fastest way before the camera copy is sent to the printer.

Back number information: Back number prices *per volume*: for Volumes 1–30, $180 list, $135 member; for Volumes 31–40, $280 list, $210 member; for Volumes 41–50, $420 list, $315 member; for Volumes 51–52, $564 list, $423 member; for Volumes 53–54, $640 list, $480 member; for Volumes 55–56, $740 list, $555 member; for Volumes 57–58, $788 list, $591 member. Back volumes are also available on 16mm positive or negative microfilm. Only current subscribers are eligible to purchase back volumes on microfilm. Write to the American Mathematical Society for a detailed price list.

Mathematical Reviews is published monthly. The issue year 1980 includes an author index for issues 80a–80f mailed with issue 80f, and an annual author and subject index mailed separately at the end of the year. Cumulative author indexes exist for Volumes 1 through 20, Volumes 21 through 28, and Volumes 29 through 44. Beginning with 1973, annual indexes are published under the title Index of Mathematical Papers.

Subscriptions and orders should be addressed to the American Mathematical Society, P. O. Box 1571, Annex Station, Providence, R. I. 02901. *All orders must be accompanied by payment.* Other correspondence should be addressed to P. O. Box 6248, Providence, R. I. 02940.
